

Fingersaver 
Safety For Your Fingers

Save Your Fingers

**Prevent hand and finger injuries
by using proper safety tools**

The Fingersaver keeps your hands away from the impact of the hammer on flogging spanners and from pinch points when using impact wrenches and hydraulic torque equipment.

Every day in many industries people are sustaining hand and finger injuries that are preventable. Using the correct safety device should be an essential part of every day life. If you are working in areas where objects could hit you on the head, you would wear a hard hat. If your eyes are at risk from foreign objects or wind blown particles, you would wear safety glasses. Think about your hands in the same way! Be sure to keep them safe and out of harms way, be sure to use the Fingersaver, don't take risks with your hands. If you want to help your employees with hand safety you should seriously consider this safety product when assessing the risks of any task with potential to injury hand and fingers.
